

**Single Point Lesson #198**

# Air filters drained and lubricators full!

X	Basic Skill
O	Counter Measure
O	Accessibility
O	Safety
O	Mistake Proofing
X	Productivity

Compressed air filtration: We need to keep our filters drained and lubricators full and operable to prevent valves and cylinders from failing again and again!

We enjoy hearing from our subscribers. If you have ideas that you feel will help our readers as Single Point Lessons, please send us your lessons. Several subscribers have already submitted lessons that have been included in our previous mailings. Please send your ideas to:
