Cleaning / Inspection Mobile Cart

Equipment Name: Various

TPM
 Focused Improvement
 Cleaning, Inspection &
 Repair Cart.

As we begin to clean & inspect our equipment, on a regular basis, we may find that it takes some time to continually look for and find all the necessary cleaning supplies.

Brushes (large & small) rags, scrapers, cleaning fluid, vacuum cleaner, oil, grease, simple tools, green foil to mark gages, paint pens, tags, locks, etc. are all needed on a regular basis, to clean, inspect, document and repair.

A card can be kept inside the cart, to document what items and the quantities

of those items that are needed. Someone, usually the TPM Coordinator to begin with, will take responsibility to periodically restock the cart.

Usually a surplus cart can be found in a facility, or they can be purchased through a company like Grainger
