

# SCAVENGER HUNTS

To make the best decisions, engineers, scientists, and planners need to fully examine the world around them. They need to look closely at the details and maybe see some things that other people might not see.

Today we challenge you to look a little more closely at your world. We've created two scavenger hunts: indoor and outdoor. Bonus points if you can complete both! Be safe and have fun!

## Outdoor Scavenger Hunt

- F**UNGI
- U**PSIDE-DOWN BUG
- S**AND
